

## Opportunities for Corporate and Lead Partners

We are the UK's leading network for people working for an environment that delivers wellbeing and prosperity for everyone.

- A growing membership of 1,800 professionals across the UK. From public health to fisheries we are for people whose work has a connection with the natural environment.
- Our reputation for independence and high quality information.
- Our unique vision: wellbeing and prosperity for everyone through a healthy natural environment

We help people learn through our signposting advice, our events to share learning, our training courses and our e-communications. In 2018, we reached over 1,000 people through our events. Each month over 2,000 users benefit from the resources on our website. Four out of five members say we benefit their work.
