

Esmée Fairbairn Foundation commissions review of natural capital projects in the UK

28th February, 2019

The **Esmée Fairbairn Foundation**, a large grant-maker and social investor in the UK, has commissioned **Environmental Finance Ltd.** to undertake a review of natural capital projects in the UK. The survey work will be carried out by **Ecosystems Knowledge Network**.

The objective of the work is to identify projects that could generate that could generate sustainable revenues or cost savings, whilst resulting in a positive impact on the natural environment. The aim is to inform the development of the natural capital investment market in the UK.

A final report will be available later in 2019.

If you are a natural capital project developer, or know of natural capital projects that you think should be included, please get in touch with the Ecosystems Knowledge Network by 15th March. Contact us at info@ecosystemsknowledge.net with 'Natural capital project review' in the subject line.
